Pretty fun but unfortunately needed a few things to generate a decent player base that the game never received. Despite not being as good as it could have been, this is still worth picking up and you can even bring a friend.

+ Tripwire finally gave us official objective mode - Something we've asked for since KF1's objective maps
+ VR support for this series is something i've literally had dreams about

- The ending was a tease and the game ended short of one important boss fight
- Holdout maps are too small
- No workshop support
- Removal of shopping phase
- Some weapons missing
- Bloat and Siren missing. boneshaker !!! hell yes

very nice looking car, run smoothly as well, and that skull in the front and those nasty fire pipes, 10outta10. Devs promised GGPO netcode. It was even a stretch goal achieved during their Indiegogo campaign. Nearly 2 years since release and still no GGPO.. It's good! Totally agree with LVL99's review.. Bullets fear the brave!. Bwoooah !
