Well, today was the last day of our Making Week. After eight days of being a Maker at the workshop, I finally have time to write up some notes on what I have learned. First, I just wanted to say a quick thank you to all of you, the wonderful people that make the workshops possible. I have learned so much in the last week, not only through the workshops I have been a part of but also from other members of the community. It has been a fun week, but now it's time to start putting it into action and making some cool projects. I would also like to say a big thank you to the amazing team at Primavera. They went above and beyond to make sure we had a great time. They spent hours explaining things to us when it was just not in the manual. I cannot tell you how much we appreciated the care and attention that was put into our Making Week. Now for the actual notes. Day 1: Pizza Arriving early. Me and my partner don't do late, we're always here on time. (Some people come late, we get there early). When you arrive early to 82157476af
